## LOGOSHIRT

**logoshirt®**

**History**  
There is a vintage and genuine idea that started the magic of LOGOSHIRT more than a decade ago: We took the most charming brands that you could have for breakfast and nightlife and fused them with cool T-shirts. The fruits were the "re-invention" of classic T-Shirt design and a consequently enhancing collection that now reads like an album of greatest hits of all time.

**Collection**  
Today more than 30 license themes perform on LOGOSHIRT garments and accessories for men and women. LOGOSHIRT offers a broad range of Slim Fit-, Loose Fit- and Girls T-Shirts with silkscreen- but also flock-printing. Alongside the T-Shirt collection a line of Sports- and Messenger Bags in various fabrics is provided. One of the latest success stories was the engagement of MAUS, ELEFANT & ENTE. Now these German television icons can celebrate their growing international popularity not only on screen!

**Highlights**  
This coming season another little coup is going to challenge the context of current T-Shirt design. In tribute to the good and not so good activist leaders of the last century, LOGOSHIRT launches a collection with revolutionary hot shots starring FIDEL, ZAPATA, JESUS, MALCOM X or GHANDI.

With our new BHAGWAN T-Shirt you can even try to get as much sex and Rolls Royce as he once did.
